Course numbering system

First digit gives level	200 = introductory	300 = intermediate	400 = advanced		
Middle digit denotes discipline	1 = analytical,	2 = organic,	3 = physical,	4 = inorganic,	5 = multidisciplinary,
Last digit gives sequence	7 = biochemistry,	9 = spectroscopy/spectrometry			

Typical Biochemistry Major Sequence*

	Fall	Winter
Year 1	CHEM 217 CHEM 221 CHEM 234 or BIOL 261 elective elective	CHEM 218 CHEM 222 CHEM 271 elective elective
Year 2	CHEM 234 or BIOL 261 CHEM 241 BIOL 266 elective elective	CHEM 235 CHEM 293 CHEM 375 elective elective
Year 3	CHEM 324 BIOL 364 elective elective elective	BIOL 368 elective elective elective elective

* All courses are 3 credits except where noted. There are forty five (45) credits of electives that must include six credits of general education courses and fifteen credits of out of program electives. The remainder may be freely chosen (chemistry, other science or non-science). Note: some courses can be taken in Summer or online.
