

Non-coop students who have found internships on their own within the aerospace sector may ask to enroll in one of the two undergraduate aerospace industry project courses IADI 301 and IADI401. These are PASS/FAIL courses that will appear on your student transcript to showcase your internship and will require you to submit an internship report.

## Registration Process

IADI 301 & IADI 401 are 3-credit extension courses. They are above and beyond the credit requirements of the student's program and are not transferable, nor are they included in the full- or part-time assessment status.

**Prerequisite/Corequisite:** Students must complete a minimum of 24 credits within their respective Engineering program prior to enrolling.

Students cannot be enrolled in IAD301 or IADI 401 if they are members of the Cooperative Education Institute while completing an internship.

A final report on your industry work during the internship must be submitted to the director of education of CIADI. A grade of PASS or FAIL will be awarded based on the evaluation of the final report.

To apply, complete this form and email it to [ciadi@concordia.ca](mailto:ciadi@concordia.ca). **Once approved, you will be notified of their registration to IADI301 or IADI401.**

It is your responsibility to clearly provide your correct email address in order for us to keep in contact with you throughout the semester.

It is your responsibility to submit a final work term report at the end of the internship.

## Course Requirements

Your work must be original and must not have been used in other course work.

**The report will be graded based on technical content as well as format and presentation as follows:**

Abstract	10
Intro	20
Main content	30
Conclusion	10
Format, style and language	20
Reference	10
<b>Total</b>	<b>100</b>

Further details on form and style can be found on our website:  
<https://www.concordia.ca/ginacody/ciadi/student-opportunities/internship.html>

**The deadline for submission of the report is the last day of classes in the term in which you registered.**

Failure to submit by the deadline will delay the grading and may result in the student not graduating in the intended term.
