Course Overrides and Special Permission to Take HKAP Courses

Occasionally, you may have to contact your **undergraduate academic advisor** for a **course override** or **special permission** to take a **core course** in **HKAP**. There are many reasons why **overrides** are given to students. For example, the capacity of a course's lecture may have been reached, but the classroom has a few more seats, or a prerequisite for a core course is missing. However, because the **Student Information System (SIS)** has a **Waiting List**, course overrides will only be given under special circumstances.

If you **need a course override** for **core program course**, you **must provide** the following information to your academic advisor:

1. Student ID number (8-digit number),
2. Course Name (CATA, EXCI, KCEP),
3. Course Number (262, 263, 252, 253, 254, 258, 259, 210),
4. Session (1 = summer, 2 = fall, 3 = fall and winter, 4 = winter),
5. Course Section: (01, 02), **and**
6. Lab Section (if applicable, 01, 02, 03, 04, 05, 06, 07, 08).

Please note that the **Undergraduate Academic Advisor** of the Department of Health, Kinesiology, and Applied Physiology **can only** provide you with **overrides** for **CATA, EXCI, and KCEP courses**.

If you need an **override** for an **elective course**, it is your responsibility to **contact** the **department offering the elective course**.

ELECTIVE COURSES: THE 24-CREDIT RULE (Section 31.003)

- In order to graduate, **all students** in the **Faculty of Arts & Science** must successfully complete **at least 24 credits outside** his or her **single discipline or department**.
- Within every block of 30 credits taken towards the degree, a student will normally choose no more than 24 credits from any one discipline or department.
- Elective courses can be categorized as either **Regular (Open Choice) or General Education electives**.
- The **categorization** of an **elective course** will depend upon its **origin**.

FACULTY	SECTOR	REGULAR ELECTIVES	GE ELECTIVES
John Molson School of Business	NA	☑	☑
Engineering & Computer Science	NA	☑	☑
Fine Arts	NA	☑	☑
Arts & Science	Humanities	☑	☑
	Social Science	☑	☑
	Science*	☑	X

*The Department of Health, Kinesiology, & Applied Physiology (HKAP) is in the **Science sector** of the Faculty of Arts & Science. Therefore, elective courses taken in the Science sector **can only be counted as regular elective credits**. As a result, **elective courses** taken in the **Science sector can never be counted as General Education (GE) elective credits**.

In your **Academic Requirements Report**, **Regular electives** are called **Open Choice electives**.

NOTE: NA = Not Applicable.

- When you are registering for elective courses, choose courses of interest to you based on your future goals.

THE GENERAL EDUCATION REQUIREMENT (Section 31.004)

- All students in the Faculty of Arts and Science are required to satisfy the **General Education (GE) requirement** by successfully completing a **minimum of 6 credits** from course offerings **outside the candidate's disciplinary sector**.

- The **disciplinary sectors** comprising the **Faculty of Arts and Science** are:
 1. Humanities,
 2. Social Science, and
 3. Science.

- Students **may also count courses** offered by Concordia University's **other 3 faculties** toward their **General Education requirement**:
 1. the John Molson School of Business,
 2. the Gina Cody School of Engineering and Computer Science, and
 3. the Faculty of Fine Arts.

- Students pursuing a **second** or **subsequent undergraduate degree** can receive an **exemption** from the GE requirement.

- Students in **HKAP** can satisfy the **6-credit GE requirement** by taking:
 1. **one 3-credit** elective course in **Humanities** and **one 3-credit** elective course in **Social Science**,
 2. **two 3-credit** elective courses in **Humanities**,
 3. **two 3-credit** elective courses in **Social Science**,
 4. **one 6-credit** elective course in **Humanities**, or
 5. **one 6-credit** elective course in **Social Science**.

- **Courses** in the **Science sector** of the Faculty of Arts & Science cannot be classified as **GE** electives. Therefore, **elective courses** taken in the **Science sector** of the Faculty of Arts & Science **cannot be used** to satisfy the **GE requirement**.

General Education (GE) courses can also be taken from the Faculty of Fine Arts, the John Molson School of Business, or the Gina Cody School of Engineering and Computer Science.

THE GENERAL EDUCATION REQUIREMENT

- Courses falling under the administrative umbrella of **Interdisciplinary Studies (INTE)** are considered for **General Education requirement purposes** to fall within the Social Sciences.
- Students in a 90-credit degree who successfully complete an **Honours program** or a **Specialization program** from the **Science disciplinary sector** and who complete the **Minor in Multidisciplinary Studies in Science** offered by the **Science College** are considered to have **met the General Education requirement**.
- Students enrolled in **two areas of concentration** which are **both within the same disciplinary sector** are required to **take six credits outside of the sector**.
 - **For example**, students enrolled in a **BA Major in History** and a **BA Major in Theological Studies**, **both** of which fall within the **Humanities**, must fulfill the requirement by successfully completing either six credits from the Social Science or Science sector, or three credits from the Social Science sector and three credits from the Science sector, or six credits from outside the Faculty of Arts and Science.
- Students enrolled in **two areas of concentration drawn from different disciplinary sectors** will be considered as having **satisfied the General Education requirement**.
 - **For example**, students enrolled in a **BA Major in Sociology (Social Science)** and a **BA Major in English (Humanities)** will be considered as having satisfied the General Education requirement.
- Students enrolled in an **undergraduate certificate program** are **exempt** from the General Education requirement.
- Students pursuing a **second** or **subsequent undergraduate degree** are **exempt** from the General Education requirement.
- **English As a Second Language (ESL) courses** or **introductory English language courses** are **not** considered as substitutions for this requirement.

Students in HKAP are not permitted to take the following courses for credit:

COURSE NAME & NUMBER	COURSE TITLE
CHEM 208	Chemistry in Our Lives
MATH 209	Fundamental Mathematics II
MATH 212	Fascinating World of Numbers
EXCI 202	The Body Human: Form and Function
EXCI 204	Food for Sport
EXCI 206	The Science of Sport
EXCI 218	Physical Growth and Maturation
EXCI 233	Current Issues in Personal and Community Health
EXCI 251	Fundamentals of Health and Physical Activity

While in Health, Kinesiology, and Applied Physiology (HKAP), students will not receive credit if they take any of these courses. Furthermore, the grades obtained for these courses will not be used to calculate their cumulative and final graduation GPAs.

- Because **HKAP students** are in the **Science sector** of the **Faculty of Arts & Science**, they are not allowed to register for **CHEM 208**. Only students outside of the Science sector may take CHEM 208.
- Students who **have received credit** or **exemption** for **MATH 203** or **equivalent** may not take MATH 209 for credit.
- Students **who have taken mathematics beyond the pre-calculus level** may not take **MATH 212** for credit.
- Also, **HKAP students** are not allowed to take the EXCI courses indicated above because these courses are **elective courses for students outside of the Department of HKAP**, otherwise known as non-HKAP students.
