Although the **enrollment appointment dates** indicate when you will be able to start registering, you can start planning and filling your **Course Cart** in **early March**.

The **enrollment appointment date** is based on the **number of credits to completion** for your program if you are a degree student.

If you wish to calculate your enrollment appointment date (EAD), the following formula is used:

Program length (minimum credits required (**MCR**)) minus **credits earned (CE)** in the **Fall semester**, and **credits in progress (CIP)** for courses as of **February 2025** (excluding DISC courses) equals **credits to completion**. Your **EAD calculation** should match the **enrollment appointment date** in your **Student Center**.

Please refer to **two examples** of the **EAD calculation** on the next 2 pages.
