TEIP ISIS-21

Telephone interview (30 min)

General: Your experience using ISIS-21 together this year

•	If you were to sum up your use of ISIS-21 with your students this year in a few words, how would you describe it?
•	If compared with last year, did you feel more comfortable?
•	What were your expectations about using ISIS-21 for project work this year?
•	What did you find was most valuable about using ISIS-21?
•	What did you find the most frustrating or difficult (research process or ISIS-21)?
•	What did you do when faced with an obstacle or a challenge?

Classroom management:
•	How often did you use ISIS-21? Home or classroom use?
•	How long did it take to use to complete the project with ISIS-21?
•	How did you organize your class for the ISIS-21 activities (whole class, individual)?

Teaching and teacher's perceptions:
•	Did you use the support materials (lesson plans)? To what extent?
•	Does using of ISIS-21 influence your teaching in any way?
•	Did ISIS-21 help you work towards particular curricular goals?
•	What did you like about the ISIS-21 software? What did you dislike?
•	What about your students? (likes and dislikes)

Conclusion:
• What would you say is the most important thing for a new user to have in order to successfully integrate ISIS-21 in their teaching? (materials, supports, training, networks, etc.)
• Is there anything else that you would like to add about using ISIS-21 with your students this year?
