RESEARCH SKILLS & RESOURCES AND TECHNOLOGY SANDBOX VISIT

Melissa Rivosecchi
Teaching & Research Librarian, Social Sciences

February 4, 2025

Hi I'm Mel!

Librarian for Education, Art Education,
Psychology, and Creative Arts Therapies.

melissa.rivosecchi@concordia.ca

I can help with:

- Accessing library resources
- Developing search strategies
- Finding resources
- APA/Citation management guidance

Objectives

TECHNOLOGY SANDBOX

- Visit the space
- Explore technology available
- Explore Tinkercad platform & teaching resources

DATABASES

- Create a search strategy; identify key concepts
- Select Education specific and interdisciplinary databases
- Search and find scholarly/peer-reviewed articles

SOFIA DISCOVERY TOOL

- Find books, articles, and other items
- Locate request button to request items through Concordia Library, Quebec university Libraries, and Interlibrary Loans
- Locate the "Request via ILL" button and "Chapter scan".

A person with long hair is wearing a VR headset and holding two VR controllers. They are standing in a workshop or library space. In the background, there is a whiteboard with some diagrams and text, and a long wooden table with various tools and equipment on it. The scene is dimly lit, with some blue and green light from the VR equipment visible.

Opened in 2017 as part of the Webster Library Transformation, the Technology Sandbox is a community space where everyone can learn by doing, by making, by playing, and by sharing knowledge with each other.

VISIT

(10-15 MINUTES)

TINKERCAD
(10-15 MINUTES)

TINKERCAD

- 3D design, circuits, codeblocks
- Explore these Tinkercad sites:
 - <https://www.tinkercad.com/classrooms-resources>
 - <https://www.tinkercad.com/lessonplans>
 - <https://www.tinkercad.com/learn>

**Library laptops: connect to wifi with your netname password. It may take a few tries to connect. If it does not work, right click on the 'ConcordiaUniversity' network and select "forget". Retry connecting.*

DISCUSSION

- What is one new thing you learned today by visiting the Technology Sandbox and/or exploring Tinkercad?

DISCUSSION

- What is one new thing you learned today by visiting the Technology Sandbox and/or exploring Tinkercad?
- Has this visit given you new ideas as to how to incorporate technology in the elementary classroom?

MAPPING IT OUT

Individually, take two minutes right now to **draw a diagram or picture of your process** for completing the research assignment in this course.

How will you start?
Where will you stop?
What are your steps?

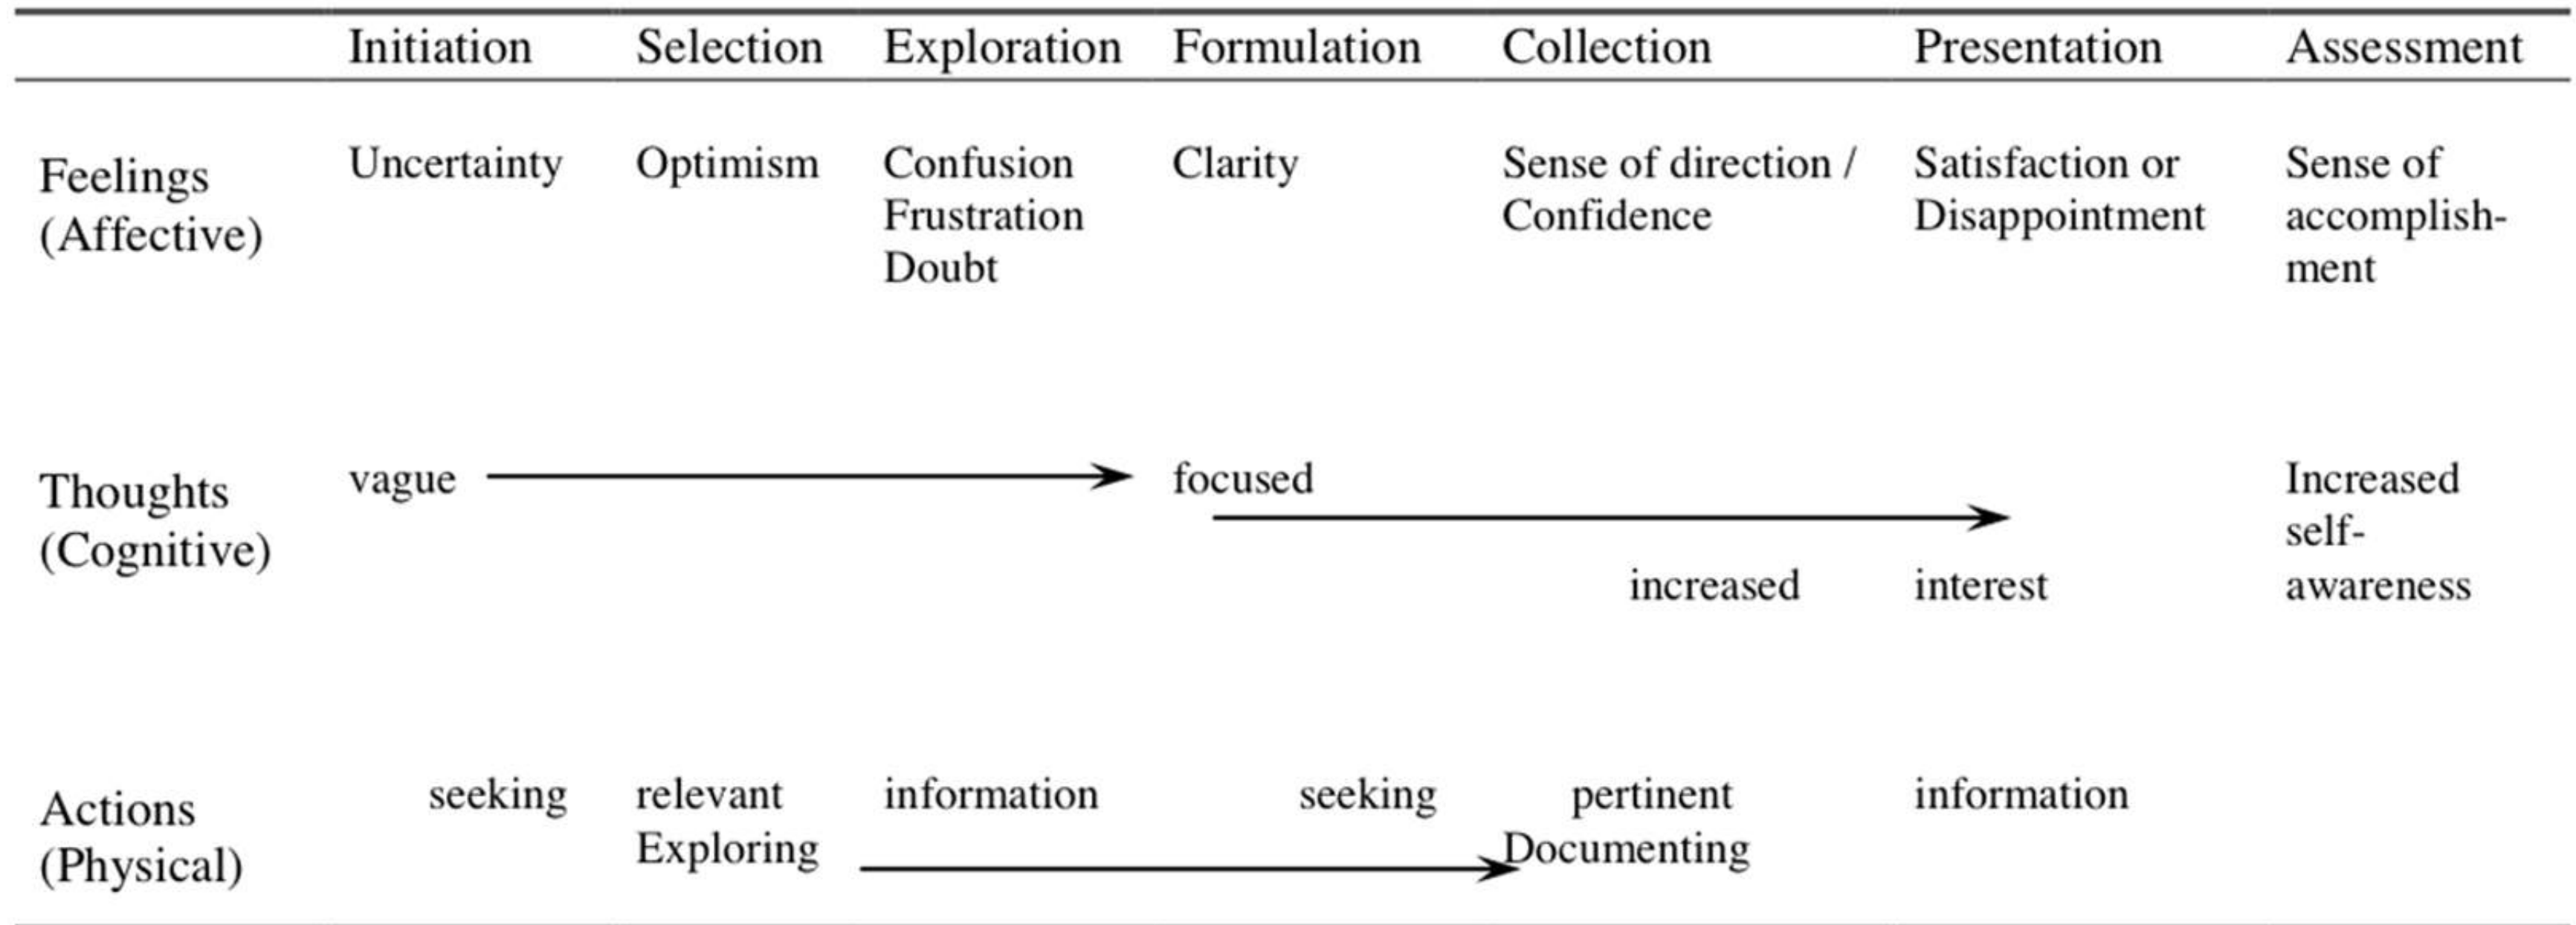

The reality is...

**Your process might feel
messy or chaotic.**

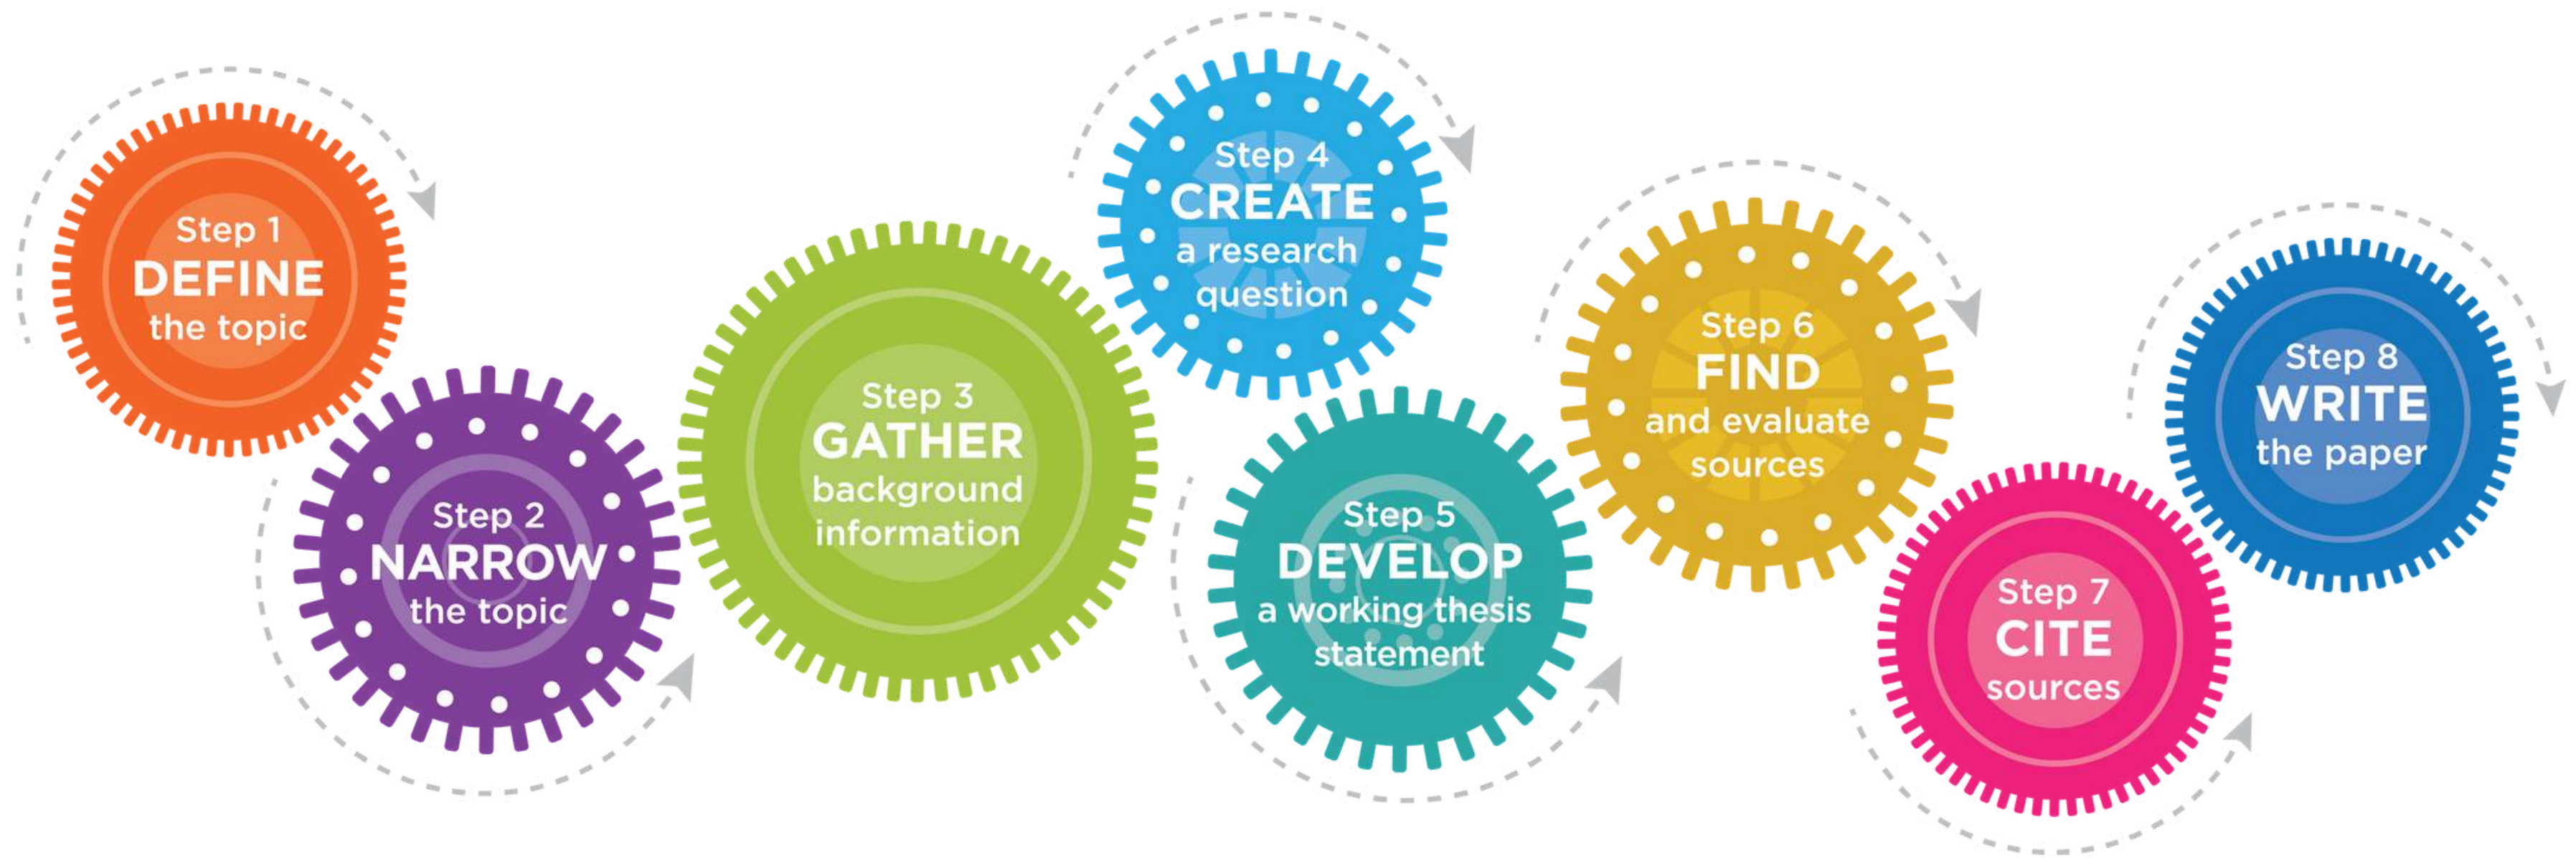

**Don't worry: clarity will
emerge!**

Model of the Information Search Process (Kuhlthau, 2004)

THE RESEARCH PROCESS

Developing a research question and search strategy

Developing a research question

WHO

- Who are being affected?
- Who are we interested in?

WHAT

- What are we interested in?
- What is happening?

WHEN

- Time frame?
- Certain moment in time?

WHERE

- Where did it happen?
- Geographic scope?

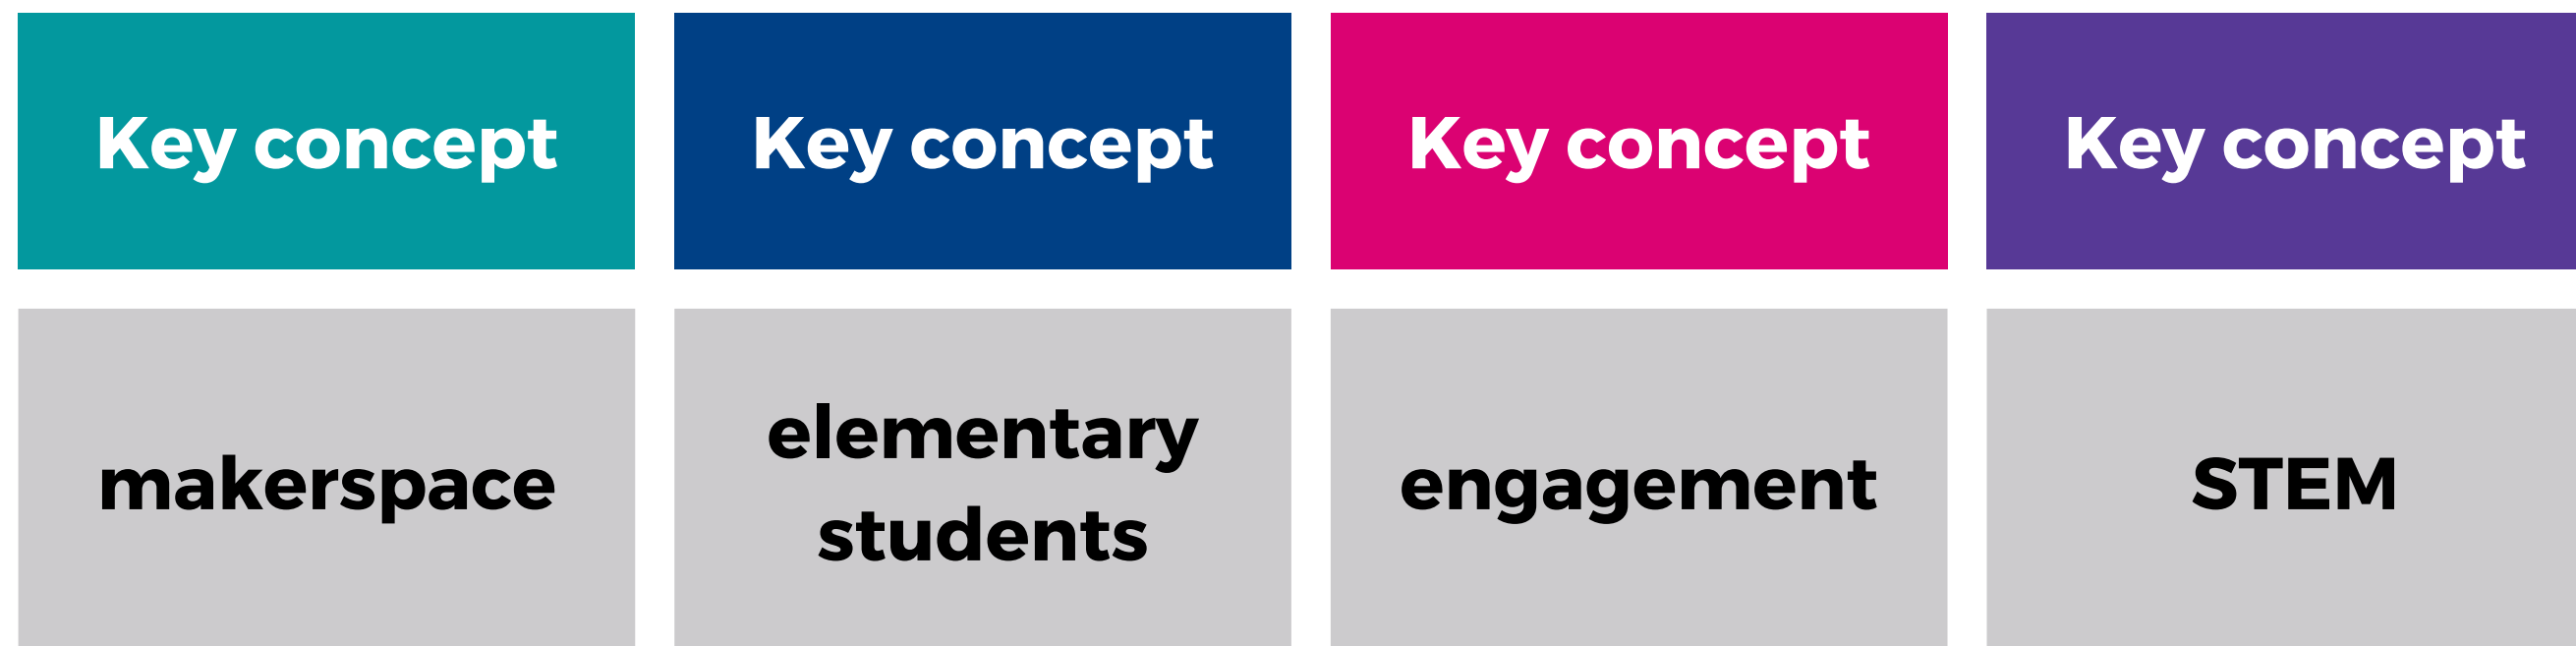

RESEARCH QUESTION

**Does the availability of diverse
makerspace technologies impact
elementary students' engagement
in STEM-related activities?**

KEY CONCEPTS

Does the availability of diverse makerspace technologies impact elementary students' engagement in STEM-related activities?

OR

"OR" give you "MORE"!

Asterisk

When placed near the end of a word finds variants. Can also be used for spelling variants.

Example: learn* = learning, learner, learners, learned

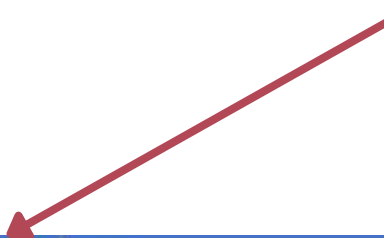

Quotation marks

Using quotation marks ensures that results retrieved contain only the exact phrase.

Example: "language policy", "educational standard*", "elementary student*"

Inclusive Voices

Apply practices for counteracting the effects of bias and exclusion of voices

Algorithmic Effects

Explain how algorithms shape search results and why this matters

Visually Mis(Representing) Data

Making data legible using graphs and diagrams has great potential. This unit helps you differentiate clarifying graphs from manipulating ones.

Different Types of Data

Data surrounds us in many ways, but how do we talk about and use it?

Misinformation and Disinformation

Recognize some of the complexities in how misinformation and disinformation can be propagated in academic information and popular media

Information Source Types

What kinds of information is out there? This is a brief overview of how to recognize and use each kind.

AI Deepfakes

Define deepfakes and some of the ways in which they are created

Tips for Searching

Learn strategies for different types of search tools

Choosing Your Search Tool

Identify types of search tools: web search engines, chatbots, AI search assistants, and databases

CRITICAL TOOLKIT FOR NAVIGATING INFORMATION

Are you an undergraduate student participating in the FutureBound program?

After reviewing the content and completing the activity for one of the units, you can complete a reflection form to have it count as one activity towards your Digital Capabilities & Mindsets certificate!

Electronic Resources

DATABASES BY SUBJECT

Browse databases by subject or search for a specific database

E-JOURNALS

Search by journal publication title

(E.g., Computers & Education)

Education Databases

ERIC

Covers over 1,100 current journals, most of which are peer reviewed; also includes conference papers, research reports, and other grey literature (ERIC Documents).

EDUCATION SOURCE

Includes thousands of scholarly and professional journals covering all areas of Education.

SEARCH DEMO

Other resources

PROQUEST COMBINED CANADA

Search for Education related stories in fulltext Canadian daily newspapers, newspapers, news sites, and journal articles

REPÈRE

French language periodicals; useful for coverage of the Quebec education system.

ÉRUDIT

Scholarly coverage of education issues relative to Canada and Quebec

EUREKA

Provides full text access to English and French language Canadian newspapers, magazines, newswires, blogs and broadcast transcripts. A valuable source for regional and local Canadian news coverage.

CANADIAN PUBLIC POLICY COLLECTION

A large collection (over 43,000 documents) of electronic monographs and reports from Canadian public policy institutes, government agencies, advocacy groups, university research centres, think-tanks, and other public interest groups.
