

François Tardy, P.Eng. M.Eng. MBA

Education	2017 – Concordia University Montreal, QC Ph.D. (Building Engineering) <i>Centre for Net-Zero Energy Building Studies</i>
	2012 – 2013 HEC Montreal Montreal, QC MBA (Intensive / English) <i>HEC 2013 Team Captain at the Ross Energy Case Competition, Michigan</i>
	2003 – 2005 École de Technologie Supérieure Montreal, QC M. Eng. (Mechanical Engineering) <i>Thesis: A study of the use of heat pipes in thermal storage for cooling.</i>
	1997 – 2002 Université de Moncton Moncton, NB B. App. Sc. (Mechanical Engineering)
Professional experience	2021 – Thermatech / AR Lintern Detroit, MI Engineering Project Manager <i>Development of BTMS (Battery Thermal Management Systems) for use on commercial electric vehicles (trucks, buses, construction vehicles) for clients in North America, Europe and Australia, including:</i> <ul style="list-style-type: none"> • Project management, DFMEA, PPAP activities • Design, Performance analysis, Supplier selection • In-house and external testing management • Unit ISO, ANSI and LH compliance
	2021 – 2024 Lion Electric Saint-Jérôme, QC Project Engineer <ul style="list-style-type: none"> • Responsible for the development of the Lion6, Lion8T trucks for high volume production in Canadian and U.S. plants. Design and testing of AC, pneumatic, cooling, and battery thermal management systems.
	2015 – Concordia University Montreal, QC Adjunct Professor <ul style="list-style-type: none"> • Engineering Management • Machine Design and Drawing • Engineering Economics • Theory of Machines • Project Management • Project Cost Estimating • Thermodynamics • Mechanical Engineering Drawings • HVAC Design • Computer-Aided Mechanical Design
	2021 – 2023 Jilin Institute of Chemical Technology Jilin City, China <ul style="list-style-type: none"> • Statics • Machine Design
2014 – 2015 École de Technologie Supérieure Montreal, QC <ul style="list-style-type: none"> • Virtual Product Development • Thermodynamics 	
2013 – 2014 Vanier College Montreal, QC <ul style="list-style-type: none"> • Electrical & Lighting Systems • Principles of Electric Controls 	

2013 – 2020	Self-employment	Montreal, QC
Energy Consultant		
<ul style="list-style-type: none"> • <i>Authored over 160 extensive energy audits in energy intensive buildings, including supermarkets, office towers, production facilities, and more.</i> • <i>Obtained over 3 M\$ in subsidies from commercial programs available from Hydro-Québec, Énergir, NBPöwer, TEQ, and others.</i> 		
2008 – 2012	PCO Innovation (Accenture)	Montreal, QC / Lyon, France
Senior Consultant		
<ul style="list-style-type: none"> • <i>(2012) IBM / Bombardier Aerospace. CATIA V5 / ENOVIA coordination for a global data migration project at involving outsourced suppliers.</i> • <i>(2011) Volvo Powertrain Finance. Deployment of customized SAP system for production sites around the world. Global super user status. Based in Lyon, France.</i> • <i>(2009) Volvo IT. Design and CATIA/ENOVIA training for suppliers in Spain.</i> • <i>(2008) Volvo 3P. Managed engine prototype testing activities in Lyon, France.</i> 		
2010 – 2011	EH2solar	Blainville, QC
Director of Engineering		
<ul style="list-style-type: none"> • <i>Managed the design, development and submittal for various cogeneration and desalination project proposals for California. Interacted with various government agencies and power plant owners.</i> • <i>Responsible for efficiency and feasibility studies regarding submitted projects, SR&ED tax credit claims and patent applications.</i> 		
2008	Carrier / United Technologies	Laval, QC
Refrigeration Engineer		
<ul style="list-style-type: none"> • <i>Chief engineer of refrigeration for the One World Trade Center (NYC) HVAC submittal project, one of the largest development projects in the company.</i> • <i>Created one of the most innovative product simulation programs in the company and managed refrigeration activities on a full-scale experimental setup.</i> • <i>Managed the facility customer service department and provided engineering expertise on many projects throughout the company.</i> 		
2006 – 2007	École Polytechnique de Montreal	Montreal, QC
Research Assistant		
<i>Thermohydraulic design of a Ventricular assist device and study of its effects on blood flow. Expertise developed in Meshing, Gas Dynamics, Heat Transfer and Turbulence.</i>		
2005 – 2006	Bombardier Aerospace	Montreal, QC
Aerospace Engineer		
<i>Completed 1-year New Graduate Training Program, focusing on flight systems, avionics, stress, design, pneumatics, experimental, flight testing, and more, resolved a number of pneumatics and icing problems in CRJ and Challenger aircraft.</i>		
2000 – 2001	Public Works & Gov. Services Canada	Halifax, NS
Student Mechanical Engineer		
<i>Design and implementation of HVAC systems for federal buildings, research on alternative refrigerants, cost estimating and system redesign.</i>		

Professional	<ul style="list-style-type: none"> Member: Ordre des ingénieurs du Québec (128700) Member: ASHRAE
Languages	Canadian citizen. Trilingual; strong abilities in French and English, both written and oral. Advanced level in Spanish. Experience in translation for large organizations.
CAD Tools	<ul style="list-style-type: none"> <u>ArcGIS ArcMAP</u> <u>CATIA V5 / Enovia LCA</u> <u>eQuest / eQRefrig</u> <u>Femlab 3.0 / Comsol Multiphysics</u> <u>Autodesk REVIT / CFD</u>
